Zero Emission Buildings

# ZEB's Main Objective

---

is to develop competitive products and solutions that will lead to market penetration of buildings with **zero greenhouse gas emissions related to their production, operation, and demolition.**

The centre will encompass both residential, commercial, and public buildings.

# ZEB Facts

---

- ZEB is a Centre for Environment-friendly Energy Research (FME), funded by the Research Council of Norway (RCN) and 26 partners.
- Host institution is NTNU with SINTEF Building and Infrastructure and SINTEF Energy Research as research partners.
- Centre started in November 2009, and RCN funds the Centre for 8 years. 50% funding from industry.
- Total budget: ca. 290 MNOK (+ additional to research infrastructure)
